

PROPERTY DUE DILIGENCE

Reference: 113589-112202 | Generated: 2026-09-23 19:26 | Report Level: Standard

31 Douglas Mclean Avenue

IMPORTANT DISCLAIMER

This report is provided for informational purposes only and is **not** a substitute for a formal Land Information Memorandum (LIM). It should not be used as the sole basis for making financial or legal decisions regarding the property.

AI EXECUTIVE SUMMARY & RISK AUDIT

CRITICAL (HAZARD DATA): Tsunami Zone — Property is not in a Tsunami Hazard Zone.

No tsunami hazard identified. This is the only CRITICAL flag in the HAZARD DATA, and it is a negative finding.

1. Natural Hazards (HAZARD DATA only)

- **Tsunami Zone:** CRITICAL flag present — property is **not** in a Tsunami Hazard Zone.
 - **Flood Extent:** Property is **not** in a recorded flood extent zone.
 - **Coastal Hazard:** Property is **not** in a Coastal Hazard Zone.
 - **Flood Risk Area:** Property is **not** in a designated Flood Risk Area.
 - **Overall natural hazard risk:** Low based solely on the HAZARD DATA. No flood, tsunami, coastal, or flood-risk-area hazards identified.
-

2. Outstanding Consents / Building Consent Red Flags

- **2007 woodburner (ID 190186):** "replaced existing with Masport insert woodburner in 2007" — status: **cert of acceptance issued**. A certificate of acceptance often indicates unconsented building work that was later accepted. Verify compliance and installation details.
 - **2019 consent records:** Entries show:
 - lodged 18-03-2019
 - invoiced 12-04-2019
 - invoiced 15-04-2019
 - cert of acceptance issued 23-04-2019
 - **No proposal description provided.**
 - **Data quality issue:** Consent IDs appear as statuses (e.g., "cert of acceptance issued", "invoiced", "lodged"), making it impossible to reliably track consents or confirm whether any remain outstanding.
 - **Red flag:** Cannot confirm all building consents are closed. Obtain full building consent history from Napier City Council.
-

3. Zoning Restrictions / Planning

- **No zoning information provided** in the data.
 - **District Plan Heritage Group:** blank — no heritage designation indicated.
 - **Red flag:** Zoning, overlays, and restrictions are unknown. Must review the Operative District Plan (e-plan link) and District Plan Map to confirm zoning and any restrictions (e.g., residential, heritage, designations).
-

4. Property Info Discrepancies

- **Area:** 0.0803 Ha (803 m²) — typical suburban section.
- **Valuation:** Land \$465,000 | Improvements \$145,000 | Capital \$610,000 (valuation date 01-10-2023). Type of Improvements: DWG OBS OI (dwelling, outbuilding, other improvements). Consistent.
- **Rates discrepancy:** Total rates levied \$4,333.02 for 2026/2027. Instalments YTD \$1,083.26 and Current Instalment \$1,083.26. However, the first instalment is due **19/08/2026**, which is after the current date (09/05/2026). A YTD payment recorded before the due date is inconsistent — verify rates account status with council.
- **Rates increase:** Last year \$4,146.48 → current \$4,333.02 (~4.5% increase). Normal.
- No other major discrepancies identified.

5. Summary of Red Flags

1. **CRITICAL flag in HAZARD DATA** (Tsunami Zone) — negative finding, no tsunami hazard.
2. **Building consent records incomplete/malformed** — certificates of acceptance suggest unconsented work (2007 woodburner, 2019 unknown). Verify with council.
3. **Zoning information missing** — need to check District Plan for restrictions.
4. **Rates YTD discrepancy** — payment recorded before due date.
5. **No natural hazards identified** based on HAZARD DATA.

Recommendations

- Obtain full building consent file from Napier City Council to clarify 2007 and 2019 consents, especially certificates of acceptance.
- Review Operative District Plan and District Plan Map for zoning, overlays, and restrictions.
- Confirm rates account status with council.
- No further natural hazard investigation required based on HAZARD DATA, but consider independent geotechnical/insurance advice if desired.
